ORDER:

In the reference read above, the Engineer-in-Chief (R&B), State Roads, Hyderabad has stated that the Nandyal – Bujanur road is an important Rural road connecting number of villages, Mandal Head quarters, Nandyal – Nandikotkur road and also to enroute to major pilgrim centre i.e., Srisailam temple. There is an existing Bridge at K.M.4/6-8 which was constructed long back of 100.35 Mts. effective length with 22 vents of 3.75 Mts. span each. During the floods occurred in the year, 2009 the approaches of the bridge towards Nandyal side of 50 Mts. length and 30 Mts. towards Bujanur side were washed out away and the traffic was interrupted for three days. The same was rectified temporarily for free flow of traffic in view of urgency. Hence it is proposed to provide additional vents towards Nandyal side with 4 vents of 8 Mts. span each and to construct the Body walls towards Bujanur side of 20 Mts. length. The Wearing coat over the existing Bridge at some places is also damaged badly.
